**RAIDED** by Hollywood police in an alleged marijuana cigarette party were film stars Robert Mitchum and Lila Leeds, and two companions. They face narcotic charges. From left: unidentified police officer; Lila Leeds, 20; real estate agent Robin Ford, 31; Mitchum, 31, and dancer Vickie Evans, 25.

## Accused Actor Hopped About Wife's Attitude

HOLLYWOOD, Sept. 4.—(AP)—Actor Robert Mitchum and three others arrested on narcotic charges will meet the Los Angeles county grand jury next Tuesday.

Mitchum, meanwhile, was "very happy about" my wife's attitude," after she arrived home yesterday and announced she would stand by him.

A typewritten statement by Mrs. Mitchum, handed to reporters after the couple emerged at the door of their modern home, said:

"Everybody ought to be able to see that Bob is a sick man. Otherwise he wouldn't be mixed up in a situation like this."

"Our differences were the same kind that all married couples get into. We've made it up. I love my husband and am back home to stay with him."

"I am indignant that not only Bob, but my whole family, should have to suffer, simply because he is a victim of a police raid, because otherwise I don't think that at this time I would be mixed up in this case, but I am mixed up with him."

"I have only one favor to ask and that is that nobody bother our children. They're very young, and they love their father, and they don't understand what it is all about."

The actor's wife Dorothy, was returning from the east when Mitchum, 31, was arrested, early Wednesday in the secluded hide-out home of Lila Leeds, 20, Detective Sgt. Alva Barr, narcotics investigator, said officers watched a marijuana-smoking party for 2 1/2 hours before arresting Mitchum, Miss Leeds, dancer Vickie Evans, 25, and Robin Ford, 31, real estate agent friend of Mitchum's were booked on charges of violating narcotics laws.

## Man Fined \$200 On Lottery Count

Edmonton city police and RCMP cracked an Irish sweepstakes lottery ring operating for a year in Western Canada, with the raid Friday of a Edmonton home.

Surrendering to police when his home was raided and a large quantity of Irish sweepstakes tickets and receipts seized was Theodore Reynolds, 1513 1/2 street.

He pleaded guilty in police court today to offering for sale tickets for the Irish Sweepstakes, a lottery by which money is disposed of by chance. The charge covered the period between Sept. 5, 1947, and Sept. 4, 1948.

Police said information as to Reynolds' activities had been received from Calgary police about two weeks ago and his name had been under observation since that time.

A search warrant was obtained, and Det. V. A. Taylor of the city police and Constable G. Grete of the Edmonton RCMP detachment raided Reynolds' home late Friday afternoon.

Express receipts indicated that books of tickets were sent by Reynolds to persons in various parts of Saskatchewan, Manitoba, British Columbia and Alberta. A large number of books were sent to Calgary.

Police said Reynolds received 80 cents commission on each book of tickets he handled. One of the seized letters written from Dublin stated that Reynolds' commission was "the highest paid to anyone."

Books of tickets were forwarded from Ireland and commissions paid.

## Bitter Fight Looming In U.S. Strike

SAN FRANCISCO, Sept. 4.—(AP)—Waterfront employers and Harry Bridges' CIO longshoremen drew their lines tighter today for a bitter "fight to the finish" in the maritime strike on the United States west coast.

First blood in the strike, which began Thursday, was drawn yesterday at Wilmington, a port for the Los Angeles area.

There, 150 CIO sailors and harborers, CIO strike call in the contract dispute, stuffed with about 100 longshoremen, CIO pickets over the unloading of a lumber ship from Oregon. Heads were struck and knuckles bruised in the melee.

Two men, including a police officer, were in hospital. Ten others, all AFL seamen, were given first aid treatment. Police said CIO longshoremen injured were treated privately.

The violence unfolded when the vessel pulled away from the dock and started in the outer harbor, still unladen.

"Our gross national production for 1948 has been over \$100,000,000—15 per cent higher than last year and three times higher than pre-war," he said.

## EXPORTS TREBLED

"Compared with pre-war, our exports have had about trebled, having increased from \$500,000,000 in 1920 to about \$2,000,000,000 in 1947. We now are the third exporting country in the world."

Canada's \$200 per capita of exports last year was more than double the per capita of the United States and the United Kingdom.

## Chamber Starts Drive For TCA Main Line

Main line Trans-Canada Airlines service for Edmonton will be the objective of a drive by the Edmonton Chamber of Commerce.

A meeting of the aviation committee of the Chamber has been held in brief on Edmonton's air position to Gordon R. McGregor, president of TCA; Transport Minister Lionel Chevrier; Hon. James A. McKinnon and R. Hon. C. D. Howe.

All city business men and the City of Edmonton will be asked to support members of the Chamber in their drive for the new service.

Chamber president F. G. W. Winpear told members of the committee he had complained of TCA's "terrible" service in a telephone conversation with Mr. McGregor.

He was also told, he said, that the expense of keeping two "main lines" in operation through both Leithbridge and Edmonton is prohibitive.

Present route of the service through Leithbridge was termed "a waste of money" by number of the committee.

Mr. Winpear charged that TCA could be serving 80,000 Alberta citizens with main service through Edmonton, instead of time to serve only about 50,000 by making Leithbridge their main stop in the province.

# Special Sitting On Freight Rates Asked

OTTAWA, Sept. 4.—(CP)—CCP leader M. J. Coldwell last night demanded a special session of parliament to deal with Canada's freight-rate issue.

His demand was based on the justice department's advice to the government, made public four days ago, that the cabinet does not possess the power to appoint a royal commission to study the dominion's freight-rate setup.

Existing statutes made the appointment of a commission by the cabinet alone impossible, the justice department said. However, the department did not rule out its appointment after parliament had changed laws which now block the move.

Mr. Coldwell, in a two-word statement, said: "Without further delay parliament should be asked to provide the authority for all determinations now existing in the freight rate structure will be examined with a view to their removal."

The CCP leader said the session of parliament—not due to meet until the new year—should "deal with the ever-increasing cost of living and the insistent public demand for price controls and subsidies."

BRIDGE

Opening Three-Bid  
Has Pro and Con

By William E. McKenney

There are two types of three-bids. Many experts use the three-bid as a nuisance bid. I favor the three-bid with a discard suit headed by the ace-king-queen, or a service suit headed by at least the ace-king-queen, and no outside strength. This brings us to a discussion of the bidding on today's hand, which came up in the featured round at the Adirondack Tournament, held at the Adirondack Hotel, New York, last night. The hand was the one given by John F. Finkelstein, New York, who gave the hand to the editor of the *Adirondack*, Edgar Nye and Alexander Weiss of New York and Samuel Gold of Montreal.

At all tables where South opened the bidding on one spade, the opponents bid to four hearts, and made four or five; or North and South went to four spades, which was doubled and generally defeated.

At all tables where South opened with a pre-emptive three-bid, West doubled and North bid four hearts. Now East did not want to come in at five hearts, so South played the hand and forced West to make in most cases this contract was defeated because East and West wanted three clubs and a heart.

Four spades was made at some tables while the ace of diamonds was opened, because one of declarer's losers could be discarded on the king of diamonds. At one table, where the bidding was three spades, double, four spades, West decided to open the spade. Declarer won with the jack of spades, led the nine of hearts, and West went up with the jack, a very poor play. Then he made mistake number two when he laid down the ace of diamonds. Declarer was excited to trump this with the jack of spades, then entered dummy and cashed the four of spades and overtook it with the five.

The king of diamonds was cashed and led and discarded by South. A small diamond from dummy was ruffed and the queen of hearts was ruffed in dummy, and the fourth diamond ruffed by declarer. Thus the fifth diamond was established for a second club discard and declarer lost only one club and one heart.

The Vatican City was named February 11, 1929.

#### Jewish Agency Not In Israeli Gov't

TEL AVIV, Israel, Sept. 4.—(AP)—The Jewish Agency moved yesterday toward separating itself from the government of Israel.

The executive decided that as of Oct. 1 no agency funds will be spent for security or political purposes or for carrying on propaganda. It also decided no agency funds shall be contributed to the government and that all funds will be employed solely for charitable purposes. The decisions clarified the position of Zionist funds raised outside Israel.

## West Motorcycle Titles At Stake Here on Monday

Edmonton's half-mile dirt track at the Exhibition Grounds will be the scene of the annual Western Canada Championship Motorcycle races Monday afternoon.

The affair, jointly sponsored by the Edmonton Motorcycle Club and the Canadian Athletic Club is slated to get underway at 1 p.m. with a 10 event racing card.

The meet, authorized by the American Motorcycle Association, is expected to be one of the best ever staged in Canada and top ranking Canadian and American motor-bike riders will be competing.

A record-breaking crowd is anticipated by officials in charge of arrangements who have their opinion on the heavy sale of advance tickets.

#### THRILLS EXPECTED

The three-minute speeders promise to provide spectators with a nerve-tangling and entertaining demonstration of speed and skill.

Officials point out that the majority of the machines ridden by these dare-devil cyclists have special high-speed motors, especially designed for racing, and the boys can be expected to put on a display of speed only attempted in motorcycle races.

The largest list of entries ever recorded has been received for the meet and more are expected before the entry list closes this evening.

honors. He is bringing five fellow-owners with him, all of whom are reputed to be capable riders. They are, Chick Barron, Louie Rivers, "Pussie" Gordian, George Calvert and "Bud" Nader.

From Helena, Montana, is Bob Davis, another prominent ace of the motorcycle racing events, who is expected to carry off a share of the winnings.

"Casey" Jones and Ray Wolfe, two other well-known American cyclists, will represent Eugene, Oregon, while Billy Bringham and Glen Rouse will attempt to take home laurels to Bellingham, Wash.

Vancouver, in addition to Dooley, will have three more representa-

tives in Bobby Dave, Vic Smith and Ken O'Neil.

#### CALGARY ENTRIES

Calgary will be well represented with ace motorcycleists, Ivan Windsor, Walter Hawley, George Bass and Jerry Keegan.

Freddie Purse, the Chinese brook ers, Don and Yen, Fred Elgert, and Doug Archer are among the leading local aspirants taking part.

The custom of chaining books to stands or reading desks was common in parts of Europe in the 15th and 16th centuries.

## TODAY'S MESSAGE

## Spiritual Success

Many men create their own misfortunes because of their defeatist attitudes. They want to make money, yet expect to be poor always. They want to be successful, but doubt their own abilities. This lack of confidence hinders progress in the temporal life. It also tends to hamper advancement in the spiritual realm.

Normal men and women want to be good. They want to be good not only in the negative sense of not committing sin, but in the positive sense of doing things for God and their neighbors. What is it, then, that so often turns spiritual zeal and altruism into lethargy and selfishness?

Basically, the abandonment of spiritual ambition stems from lack of a proper understanding of what God expects from us. To live a just life a man need only make honest use of the spiritual capacities which God has endowed him. Not all men are called to supreme saintliness. But everyone can at least be good and pure, edifying to others, and pleasing to God. Everyone can make progress and achieve spiritual success of a high, if not the highest, order simply by trying.

Confidence both in ourselves and in God must not be allowed to lag. It is necessary to pray often, for of course, but it is perhaps even more necessary to be able to rise out of our occasional setbacks and start the struggle afresh. We can never afford to become disheartened because we seem prone to weakness. God knows we are weak. It is not our temptations that matter, but the manner in which we meet and learn to overcome them.

We must be as realistic about spiritual things as we are about the affairs of earth. We are all made to God's image and we do not have to achieve equal triumphs to reach heaven. There are especially blessed souls who achieve preeminence in the spiritual life. But they are comparatively few. The average man's success must necessarily be of a much lower order. But God's hands have their own power to make the seemingly trivial inconceivably great. His rewards are based not so much on what we do but on how much courage and steadfastness have gone into its accomplishment.

## COME TO CHURCH THIS SUNDAY

## Christian Science

The Sunday Lesson—Sermon on "Man in Christian Science churches is composed of passages like these: "But that they may know the Son of man that hath power on earth to forgive sin (the 10th) to the sick of the palsy. Arise, take up thy bed, and go home, and departed to his house." (Matthew 9: 1-7) Jesus beheld in Science the poor man, who appeared to him when shining mortal man appears to mortal. Jesus the perfect man, the Saviour saw God's own likeness, that this current view of man made the sick." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, pp. 477.)

## Musical Campaign By Gospel Team

The Fox Party, International artists, will visit Edmonton and will open a city-wide musical evangelistic campaign in the Pentecostal Tabernacle, 10047 108th Street, Sunday evening, Sept. 5, at 7:30 o'clock. Personnel of the group includes the Rev. Leroy K. Fox, leading musician and speaker; Ruth L. Fox, contralto soloist; Rev. William T. Cantelon, speaker, oil and chalk artist; Verna D. Cantelon, trumpet soloist; and Cecil Caruthers, song leader and musician.

Mr. Fox is a talented musician, playing piano, pipe organ, electric Hawaiian guitar and accordion. Programs regularly feature his original piano compositions and sacred music dramas, such as "The Storm," "Battle of Armageddon," "Fall of Jericho" and many others. His original cantatas are presented by the entire group, illustrated in full color pictures.

Oil paintings on biblical themes are done publicly in the rallies by William T. Cantelon, and when completed, the pictures are presented by the entire group, responsible for bringing the most visitors to the services. A stirring gospel message concludes each program.

## Two Services

The Rev. T. J. Stanton, MA, minister of Eastwood United Church, announced Saturday that beginning September 5, two services would be held each Sunday at Eastwood in order to give the growing community better facilities for church.

## Musical Activity Gains Momentum

New Teacher for Schools, New Teacher for Studio

By Dick Sherbanuk

As Edmonton's bustling winter season of musical activity gets underway this month (see other pages of today's Bulletin), a newcomer to the city is preparing for a musical season of his own.

He is Keith Russell, newly appointed supervisor of assistant supervisors of the Edmonton School Board.

## Safety Rules For Schools

A program of school education for safety will be instituted this year by the Edmonton School Board.

By arrangement with the National Safety Council of Chicago, teaching materials will be purchased at a cost of \$5 to \$25 per school which will include lesson plans, magazines, teachers' manuals, films, posters, and films, all of which are designed to maintain a maximum of interest.

An objective of \$25,000 has been set by the Council to finance their work in all fields, but there will be no home-to-home canvassing. Membership fees may be mailed to the campaign headquarters in the Williamson Building.

Somehow Tommy Dorsey had Freddy Martin to the draw in this year's RCA Victor album Tchekowky's Melodies For Dancing, in which some of his old favorites, accompanied by the Columbia Orchestra, are included.

## 'The Postman' Returns With Good Effort

By Harold Delany

THE MOTH, By James M. Cain. New York: Alfred A. Knopf, 373 pages.

The author of the slender and shocking "The Postman" and "Severance" has produced a full-sized volume which is its bulk will inform the reader that here is his most ambitious effort to date.

Unlike all of Mr. Cain's previous books, it is both complete and chronological, taking his hero from boyhood to maturity, in an amazingly full, but full life.

The story opens with the hero, Dick Acton, feeling that it is something new to him.

Between times, Jack is successful, a big-time football player, a hero of the depression, and an old-fashioned worker.

There are reasons and motives for his hobnobbing and all-working adventure, most of which are explained in the interest of the book, and some of which are explained in the interest of the book, and some of which are explained in the interest of the book.

TYPICAL SIREN A typical James M. Cain siren is entangled in the jungle of love, lust and sex, and is a replica of the hero's, who is a replica of the hero's, who is a replica of the hero's.

After two attempted murders follow the already mentioned death, Dick comes up with a solution which is perfectly satisfactory except that there is no evidence to support it.

But who are we to object to a solution which is the official approval of the police?

TREMOLO, By Ernest Borneman. New York: Harper and Brothers, 224 pages.

There's dirty work afoot at the suburban home of Mike Sommer, ex-jazzman, now owner of a musical instrument factory.

No explanations are forthcoming from his wife, Marge, regarding events in which she seems to be involved. When his orders to have cut flowers placed in the house are overruled, he is mildly irritated.

Irritation becomes annoyance when Marge denies knowledge of his expensive negligence which has been delivered to her.

Announcement becomes alarm when she overhears a suspicious conversation between his wife and an unknown man.

The tremolo of events in this only fair mystery, climbs to a crescendo of doubt and misunderstanding.

BETWEEN THE BOOKENDS "Hate, Hope and High Explosive" will be the title of a book George Fielding Eliot is completing. It will be based on material the author gathered during a recent trip through the Middle East.

Living Stone, famed author of the Vincent Van Gogh, Jack London autobiographies, "Last For Life" and "Salter on Horseback" is doing a biography of Governor Earl Warren which Prentice Hall expects to bring out almost any day.

## New Radio Station Fills Another Gap

By Don Flach

Another gap has been filled. With the official opening of the new CBC radio station in Alberta, CHX, another gap in the national service of this country's publicly-owned radio system will be closed.

Through the new station the best in radio entertainment and information will be made available to listeners in this province.

The opening, next Wednesday night, marks the end of a series of station openings and power increases across Canada which brings nearer to completion the plan of national coverage envisaged by the Air Commission in 1929.

Since the first of September the Corporation's "one operation three stations" plan has been in effect, with the addition of CHX in Alberta, these include CBW in Manitoba and CBC in Toronto.

Increase of CBW to 100,000 watts this year will make a total of eight of the most powerful broadcasting stations, allowed by the Havana Conference on radio broadcasting, serving Canadian from coast to coast.

Both the studios and the transmitter incorporate the latest developments in long wave broadcasting, and no effort has been spared to bring listeners the highest quality of reproduction possible to radio.

The two welded steel towers of CHX, the 500 feet above the earth at the Lacombe transmitter—the highest mast in the world—will be anchored by two long towers, each 350 feet in the base, and extend to stand a 10-mile gale, even when coated half an inch with ice.

The two towers give the transmitter a broadcast pattern designed to cover the province over its north-south length. The station's primary service area extends from the U.S. border in the south, to the Peace River and Fort McMurray areas in the north. This distance is 550 miles but the actual reach is much further into the United States and the North-West Territories.

Amazing is the length of wire used in the transmitter. Under the ground, radiating in an oval pattern from the base of the towers, the engineers have buried 92,000 feet (about 17 miles) of heavy copper wire serving as a ground plane for the station's broadcast. All metal in the transmitter building, including window frames and plumbing fixtures, has to be connected with the ground because of the concentration of high voltage.

There is so much electricity in the transmitter from that an unattended fluorescent light bulb held in the hand, will glow with nearly full brilliancy. Enough electricity is used when the station is broadcasting to serve a five-story town.

The studios on the sixth floor of the Macdonald Hotel, while not large, are built on most modern radio engineering principles known in the industry.

The entire studios and control room are suspended on resilient material designed to isolate them from any shock or vibration that

might originate in other sections of the building.

Walls of the rooms are engineered to absorb and reflect frequencies of the high and low frequencies of sound to give radio reproduction.

Rubber trim around doors, laminated with lead sheeting, further eliminates possibilities of sound leaks and vibration.

GLASS SEPARATOR Glass panels three-eighths and one-half inches in thickness, separate the studios and control room where most up-to-date controls and facilities have been installed.

Seven thousand feet of electrical conduit for more than a week, it is to be "officially" opened in ceremonies to be held in the main hall-room of the Macdonald hotel Wednesday evening from 8 to 10 p.m.

Lieutenant-Governor J. C. Bowen as well as CBC Chairman A. Davidson, Dominion and General Manager Dr. Augustin Friess, will be on hand for the ceremonies.

LOCAL TALENT A program of leading local talent has been arranged which will include Edmonton's own, the late Miss McBeth, Randall Stevens, new from Great Britain where he was a wide circuit in opera roles, Missa, a pianist, the Jean Cotton Trio and Peter Kirkpatrick, actor, of Calgary.

## Canada's Coal Bin Not Full Enough

OTTAWA, Sept. 4.—(CP)—A government authority yesterday said Trade Minister Howe will soon issue an official warning that Canadians must go easy on coal and fuel oil supplies this winter.

The spokesman said that although Canada's fuel picture looked brighter this year than a year ago, storage difficulties still persisted.

The dominion, he said, still was unable to transport sufficient fuel oil and coal from United States points in the short navigation season to cover the entire winter season.

Sleeper prices also appeared to be in store for Canadian consumers, the spokesman said. Anthracite coal likely will climb \$1.50 to \$1.75 a ton. He would not give an estimate of what the fuel-oil increase might be.

However, the fuel authority believed the fuel oil increase will be moderate.

The official gave these reasons for the probable increase in the price of coal:

2. Two freight rate increases announced by the railways this year, one granted by the board of transport commissioners last spring and other announced by the railways this month to cover competitive rates only.

2. Coal miners' demands for higher wages.

3. Union trouble earlier this year in the Alberta mining fields.

But there was a bright side to the fuel picture. The official said that production increases in the Maritimes have been noted and there also has been a slight increase in the Alberta area.

These increases, the official said, coupled with uninterrupted deliveries from the Pennsylvania fields will make for warmer homes in Canada this winter.

## Duplessis Urges Fight Against Reds

### Asks Ottawa's Co-operation In Quebec's Battle on Communism

QUEBEC, Sept. 4.—(CP)—Premier Duplessis last night asked Ottawa's co-operation in the Quebec government's fight against Communism.

Charging Ottawa had allowed "notorious Communists" into Canada as a result of "careless immigration policies," Mr. Duplessis told a press conference.

"I hope federal authorities will collaborate with the Quebec government in its fight against Communism," he said.

"As for us," he continued, "we can be certain the Union Nationale will never compromise with Communists and their sides and will continue to fight with all its might against these insidious theories."

Discussing northern Quebec's Unava region, the premier said industrialists developing iron mines estimate 250,000 tons of minerals are in the area.

"Industrialists exploiting iron mines in Unava told me they are positive of the presence of 250,000 tons of minerals and that they already have spent \$3,000,000 for preliminary work."

Mr. Duplessis disclosed that Unava potentials followed by only a few weeks his announcement that large lithium deposits had been found in northeastern Quebec.

A \$1,500,000 factory recently was built at Gaitanes Mills, Que., for processing waste from pulp mills, he said.

"Until now," Mr. Duplessis said, "lithium were being thrown in Gaitanes river which became polluted... these lithium are a source of revenue, for they are being used to produce things that are in great demand."

**Mine Workers End Convention Abruptly**

TRURO, N.S., Sept. 4.—(CP)—The United Mine Workers' 15th annual convention ended abruptly last night after 11 exhausting days of thrashing out policy by compromise and heated argument.

The convention was expected to last until today but delegates gave only quick consideration to the report of research director C. B. Wade before approving it unanimously.

Discussion on the report was expected to be prolonged, particularly on Communism, but the subject did not come up.

**Fires Menace Redwood Park**

SANTA CRUZ, CALIF., Sept. 4.—(AP)—More than 8,000 acres of California forest lay in smoking ash on last night as the state's worst timberland fire of the year swept out of control.

The blaze has been gaining steadily since its discovery Tuesday in rugged coastal cañons 15 miles north of this big seaside resort.

Nearly 300 firefighters are in action as the flames spread along a five-mile front south of the Big Basin Redwood Park.

**Waiter To Face Robbery Charge**

VANCOUVER, Sept. 4.—(CP)—Gordon "Blondie" Lyons last night was charged as being one of the "rehabilitation bandits" who robbed the Broadway Bank of Commerce here Aug. 23 of \$100,000.

The 30-year-old Vancouver waiter, arrested Thursday in a suburban Idaho island shack, was charged with robbery with violence. He was picked out of a police lineup.

**THEY'LL DEPEND ON BOWS AND ARROWS**

VANCOUVER, Sept. 4.—(CP)—Three modern Robin Hoods, "fed up with the rush, rush of city life," yesterday camped in Stanley Park here and said they would eat on what they catch with their bows and arrows.

The trio hailed from San Francisco and include salesman Maurice Charles, 25, his 27-year-old wife, Nikki, and university student Leo Theroux, 25. They said they were civilized but thought they could live happily in uncivilized fashion.

They arrived here after five days on Vancouver Island, during which they hunted and fished for their living—by the bow and arrow. The experienced archers also are equipped with two dogs, a canoe, sleeping bags and coffee and sugar.

"We've eaten everything from big game to robins and squirrels," said the attractive, dark-haired Nikki.

**Eight-Man Committee To Plan Legal Survey**

MONTREAL, Sept. 4.—(CP)—The Canadian Bar Association yesterday set up an eight-man committee to plan details for a legal survey throughout Canada.

Number of lawyers in each district; whether some districts are over-crowded and others below satisfactory legal representation.

Whether professional services by lawyers are at standard or low.

Study of fees charged.

Study of present systems of legal education.

The association earmarked \$50,000 for the survey.

Following a report by D. Park Jamieson of St. John's, on the civil justice section, a resolution was approved providing that the survey should be given provincial sub-committees for discussion. The sub-committees are to report back at the mid-winter meeting.

Walter S. Owen of Vancouver was elected chairman of the civil justice section and W. P. Gregory, Stratford, Ont., re-elected secretary.

A. J. Campbell of Vancouver was named chairman of a committee to deal with finances and conditions to assist the bar in Britain.

## Border Crossing

NANKING, Sept. 4.—(AP)—China's foreign ministry yesterday said that a brigade of Soviet army troops had crossed the border into Manchuria.

The decision of the British automobile manufacturers to start with production in Canada offers convincing evidence of confidence of the country's trade expansion as well as beginning an important new industry," he added.

Malone was overly impressed with the demonstration of the seven new Austin models at the C.N.E. Toronto.

"The models will be known as 'The Canadian Family' and include the A50 Allstate convertible, A40 Devon, A15 Sherline, A70 Hampshire, A30 Countryman, A40 15-ton pick up and the A50 15-ton panel delivery."

Also coming in for considerable praise was the new plant at Hamilton. "It has everything," said Malone. "It's fully equipped with all the latest conveniences and apparatus for building Austin cars, trucks and cars."

He praised Austin mechanics and men supervising the work and the plant will employ between 800 and 1,000 Canadian workmen. The initial schedule calls for between 200 and 300 cars a week," he added.

While all the new models of the "Canadian Family" were highly praised by Malone, three of the seven really caught the fancy of the local British Car agent.

"The A50 Allstate Convertible is a sleek, ground hugging beauty that's eager for the open road. Powerful and speed to spare, with sweeping lines of breathtaking symmetry. A car for the restless adventurous spirit—one that anyone would be proud to own," said Malone.

Many of England's libraries and records were destroyed or ruined in the blitz.

**Bar Ass'n Names Committee Heads**

MONTREAL, Sept. 4.—(CP)—Chairmen of the various committees for 1949 were announced yesterday at the closing session of the Canadian bar association convention.

Finance, T. D'Arcy Leonard, Toronto; investments, F. H. Chisholm, Montreal; membership, L. V. Sutton, Toronto; constitution, G. E. Atkins, Toronto; Viscount Hewart Scholarship, G. H. Silver, Edmonton; Canadian bar review, Alastair Macdonald, Ottawa; legal procedure, an international organization for maintenance of peace, John T. Hackett, Montreal; statutory law changes, J. V. Hogg, Victoria; judges' salaries, F. H. Hogg, Montreal; restoration of the laws of court, James Campbell, Vancouver.

Many of England's libraries and records were destroyed or ruined in the blitz.

**Canada Austin Plant New Era in Motoring**

"A new era of motoring refinement with economy arising from the manufacturing of Austin cars in Canada," said R. P. "Pat" Malone, manager of English Cars Limited, following his return to the city after flying trip to the official opening of the new Austin plant at Hamilton and the mammoth Austin demonstration at the Canadian National Exhibition in Toronto.

Hardly stopping for breath Malone expressed his enthusiasm for the new A15 Sherline. "It's in the higher price field, but the Sherline has a distinctive new styling. Built with exacting care and devotion to detail, with an outstanding chassis and tasteful appointments, the Sherline is for the person of discriminating taste to whom nothing but the very best is acceptable."

"A family car for all Canadians," said Malone. "It's in the lowest price field but the four-door sedan combines beauty and graceful styling with unheard-of economy, up to 33 miles on a gallon of gas."

"The best is to Austin," continued Malone. "Canadians are fast realizing the fact that Austin cars and trucks can match strides with the larger automobiles and they may be operated at much less cost to the motorist."

In conclusion Malone said: "All Austin models on sale in Canada are equipped with the conventional left-hand drive and available replacement parts are available throughout the United States."

### WALLACE'S CAR IS EGG TARGET

MEMPHIS, Tenn., Sept. 4.—(AP)—An egg splashed against Henry Wallace's automobile last night after he had finished speaking before an unguarded crowd of 2,000.

The presidential aspirant of the Progressive party shrugged off the egg-throwing affair by saying "It did not harm—it was just a pulled egg."

Wallace's audience interrupted him constantly with both cheers and jeers during the 25-minute talk in which he praised the Tennessee Valley Authority's power development.

"Power belongs to people, not individual power trusts," he said.

### 'Not Guilty' Say 2 Men

Quebec, Sept. 4.—(CP)—Two men arraigned in court yesterday pleaded not guilty to six counts of gross indecency in connection with an alleged vice ring, the "most resolute" in police files.

Police announced they had broken the ring after nearly two months' investigation.

The pair, Aurelie Drouin and Louis La Houelle, were remanded for preliminary hearing next Friday. La Houelle's bail was set at \$5,000 while Drouin was taken to jail where he is serving a term following conviction last year on a charge of keeping a house of prostitution.

The ring was exposed following the arrest and conviction of a 12-year-old boy on a vagrancy charge for which he was given eight days.

There has been no change in the output of crude oil at the wild Atlantic well other than the usual fluctuations, according to oil men commenting on rumors that the rate of production had reached a new high. Estimated production on Friday was 10,000 barrels compared with figures that ranged as high as 14,000 barrels daily last month.

### Lumber Workers Gain Increase

A five-cent-an-hour overall increase was granted to over 60 employees of the Atlas and Nance Lumber Companies at Rocky Mountain House.

Retrospectively to April 1, the settlement was arranged at a Calgary conciliation meeting between David Graham, organizer, Local 460, International Woodworkers of America (I.W.A.) and company representatives.

## STRAIGHT TO THE TARGET—SHE HOPES

**BULLY'S EYE BOUND** is this arrow from the bow of charming Vicki Paulsby, member of the Edmonton Archery Club. One of four sisters who enthuse about the sport, Vicki is out every Tuesday evening and Sunday afternoon with 45 other members of the club. They meet just below the High Level Bridge.

## LISTENING TO PRESIDENT MAY BRING GOLD FEATHER

**KNOW-HOW OF THE GAME** is provided by Robert Copeman, president of the club and quite a champion archer, who shows Helen Paulsby the value and whereabouts of archery. He says it's easy to catch on and all that's required is a little bit of practice. Although the bows are heavy

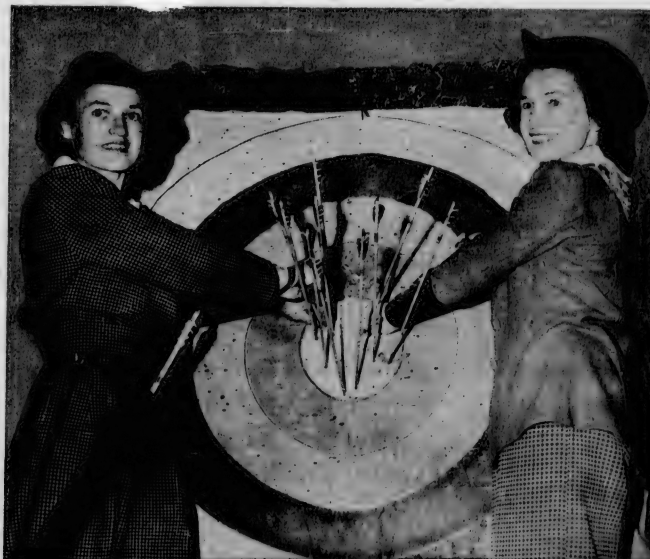

and the strings hard to pull, women aren't far behind the men as far as skill is concerned. Showing isn't all club members do. Following games, they brew coffee and have refreshments—it was a corn roast last week.

## FEATHERS IN THEIR CAPS IF THEY HIT THIS ONE

**STANDING IN CLUB** will soon be shown by color of the feather worn in the Robin Hood hats. They will be gold, red, blue or green. Since the center of the target is gold, club member with highest standing will have

gold feather. Many members are Calgary-bound this week-end to take part in the provincial tournament. From left, Helen Kimball, secretary of Edmonton club; Mrs. Robert Copeman, social convener and women's champion; Phyllis Sampson.

## THESE ARROWS HIT THEIR MARK

**PULLING THEM OUT** is easier than putting them there, says Olga Paulsby, left, and her sister, Ann. They dress in warm clothes for these chilly fall nights. Members begin arching as soon as the weather is warm and continue until

late autumn. Essential equipment includes a quiver for the arrows, arm guards and finger guards as well as the bow and arrows. They shoot from distances of 30, 40 and 50 feet.

## Couple Celebrates 50th Anniversary

ST. PAUL, Alta., Sept. 4.—In honor of their golden wedding anniversary, high mass was held in the R.C. Church at St. Vincent on Tuesday, August 21st, for Mr. and Mrs. Andre Brousseau of St. Vincent. Rev. Father Langevin of Chauvin, nephew of the honored couple officiated.

Mr. and Mrs. Brousseau (nee Langevin) were married in St. Mary's Cathedral, Quebec, in 1900. They have resided until the present time. They have a lovely family of eleven children: three sons, Leon, Alphonse and Ovide, and eight daughters, Mrs. Adrien Fugère, Mrs. Ovide Gervais, Mrs. Pauline Martin, Mrs. Maurice Huet, Mrs. Patrick Bussiere, Mrs. Marie Hebert, Mrs. Sister Angela of Union Lake, Saskatchewan, and Laura at home.

Following the ceremony a reception banquet was held in the Parish Hall at St. Vincent at which some 200 guests, most of whom are relatives, were in attendance.

Quebec relatives who journeyed here for the occasion were Charles Langevin of St. Marie, Victor Gagne of St. Isidore, G. and C. Brousseau of St. Bernard, Geo. Hebert and J. P. Morin of Quebec City.

### Glendon Wedding

GLENDON, Sept. 4.—Lucille, daughter of Mr. and Mrs. H. Lucille, and Cornelius Filipechuk, son of Mr. and Mrs. G. Filipechuk, also of Glendon, were married at the Greek Orthodox church here recently. Rev. Senechen performed the ceremony.

Mrs. Olga Yarosh was matron of honor and Vivian Podal, sister of the bride, was maid of honor. Bridesmaids were Audrey Winiak, Julie Winiak, Anne Filipechuk and Clara Chirapko, and flower girls Iris Winiak and Esther Harrison. Best men were Albert Lukian, Peter Filipechuk, brother of the groom, William Marie and William Filipechuk. Out-of-town guests at the reception which followed at the National Hall included Mr. and Mrs. W. Chateau, Vernon, B.C.; Mr. and Mrs. J. Yarosh, Opal, Mr. and Mrs. B. Winiak, Edmonton; N. Melnyk, Waskatoon; Mr. and Mrs. M. Melnyk, Winnipeg; Mr. and Mrs. A. Melnyk, Darling; Mr. and Mrs. J. Melnyk, Edmonton; J. Shevitz, Edmonton; Mr. and Mrs. J. Kryz, Redwater; Mrs. A. HARDISTY, Sept. 4.—Sam Hammett, well-known resident of the Amisk district, died in an Edmonton hospital recently. Mr. Hammett was born at Invergowrie, Aberdeenshire, Scot., in 1896. Surviving are a brother and sister in England and one brother, George, at Amisk.

## Red Deer Teams Still Deadlocked

RED DEER, Sept. 4.—The Provincial Training School and Red Deer are still tied up in their playoff for the Red Deer women's football championship. The teams played in a 9-9 draw in the third game of the best of three series after splitting the first two contests.

Good ball was provided for a large crowd and only a few errors were chalked up while there was good hitting and snappy fielding. Falco had the game well in hand with a three-run lead going into the last of the seventh frame.

The school girls scored two runs and two were gone when George's single home to tally the tying run. The next batter made the third out to end the tilt.

Heavy hitting was a feature of the game with three home runs and six triples. Jimmy Brock and Ramona connected for homers.

Ericksen, Lou Gillette, Deacy Gillette, Slimy, Twente and Ramona each hit for three bases.

RED DEER, Sept. 4.—Red Deer Agricultural Society expects to have a surplus of about \$3,000 on the 1948 fair. This was the report given by secretary D. W. Robertson at a meeting of the directors. A substantial part of the surplus will be turned over to the city of Red Deer to help pay for improvements at the Fair Grounds.

President Frank Stewart or vice-president John Richardson and Secretary Robertson will attend the meeting of the Class B fairs at Saskatoon in October. The Fair Grounds Commission will be asked to clear some land west of the grounds to provide more room for parking. Appreciation was expressed to Holland B. Sharman, station superintendent, and his committee for the splendid way they looked after stock exhibits at the fair. The annual meeting of the board will be held on Nov. 20.

## Teenie Weenie Crime

THREE of the Teenie Weenie men had been behaving peculiarly for the past few days. The Dunce, Gogo and the Sailor were seen much together and they would disappear for long periods. The Policeman grew suspicious when the three men seemed to lack appetite. Meal after meal they would just nibble at their food, which was most unusual for all of them.

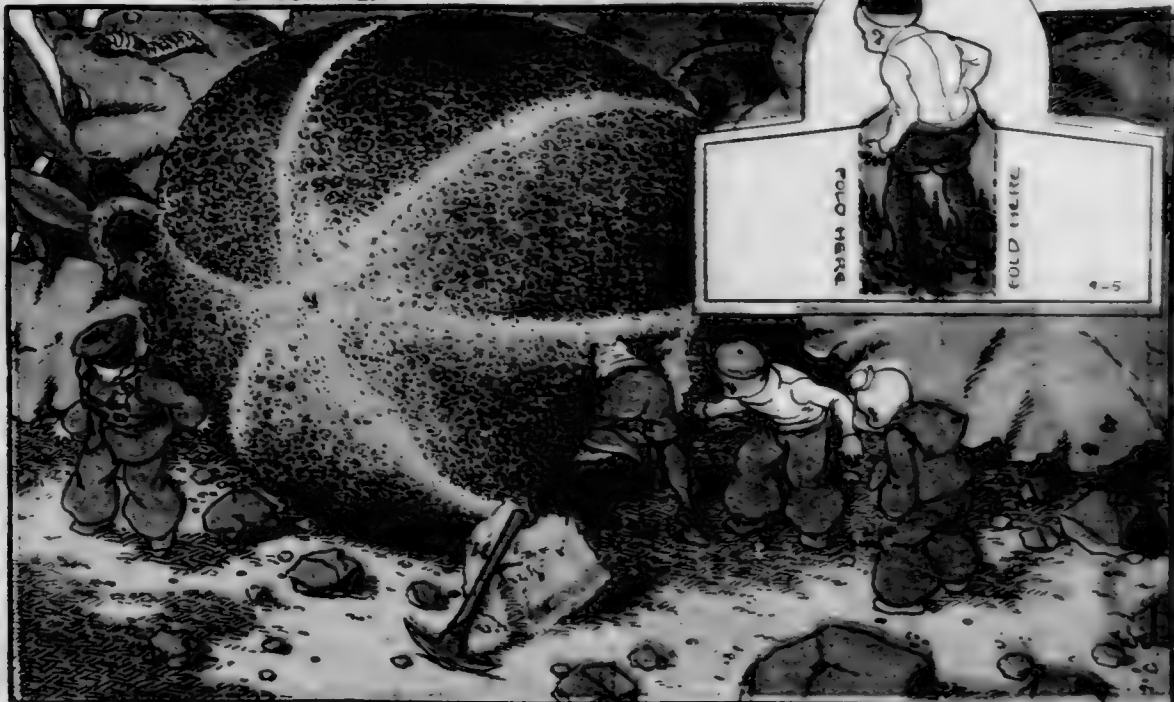

"It seems to me," the Policeman, an authority on good eating, told the General, "that those boys are doing considerable eating on the side. I believe I'll watch them."

The Policeman followed the three Teenie Weenies one afternoon and they led him straight to Grandma Pettigob's garden. The little officer of the law watched them take a Teenie Weenie pick from beneath a melon leaf where it had been hidden and pry out a wedge that had been carefully cut in the side of a ripe muskmelon. Pulling a Teenie Weenie butcher knife from beneath his sweater, the Dunce crawled through the opening and quickly passed out huge chunks of the melon to Gogo and the Sailor. Climbing out of the melon with a big piece for himself, the Dunce joined the other two Teenie Weenies. They all sat down in the shade of a leaf and began stuffing themselves. The Policeman, who had carefully kept out of sight, stepped into view.

"SO!" he said, when he stood before the three melon eaters. "This is how you fellows have been spoiling your appetites. Stealing is a serious crime. I'll have to place you all under arrest."

## THE TEENIE WEEENIES

BY W.M. DONAHUE

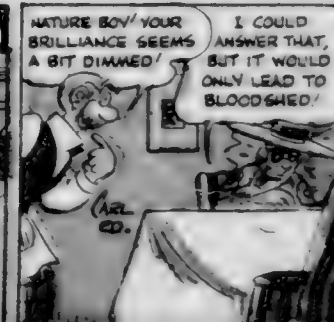

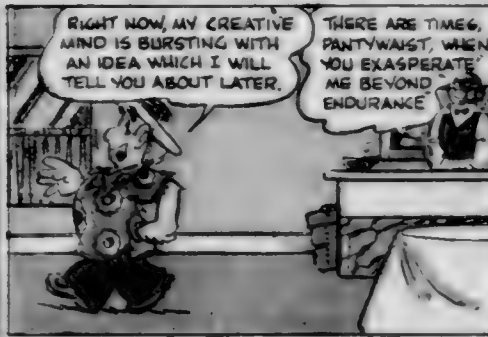

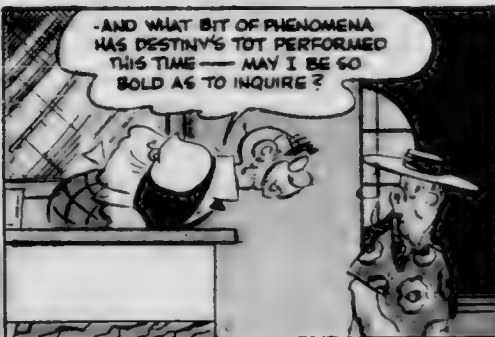

The Policeman marched the three prisoners to the Teenie Weenie village, where the General immediately opened court. The Dunce, who is rather good at arguing out of trouble, was chosen by the Sailor and Gogo to state their case.

"It's this way, General, Your Honor," began the Dunce. "We knew it was wrong to break into that melon, but we decided to have all we wanted anyway. I have stated the whole truth and now we throw ourselves on the mercy of this court."

"It is my duty to find you guilty of maliciously entering a muskmelon and removing the contents thereof," said the General. "In punishment this court must sentence you to no dessert for three weeks and two hours of hard labor each day for two weeks. But in consideration of your honest admission of guilt, your sentence shall be cut in half, provided you solemnly swear that you will never enter another melon."

"We promise!" chorused the three prisoners.
